# FTPASS

ENTERPRISE SYSTEM SOFTWARE

(A complete **Visitor Management** System)

Intro

We provide enterprise-grade '**visitor management**' and process optimization products. This is a cloud-based platform and resides on a tablet-powered kiosk situated at a company's entrance and provides more hassle-free and efficient access to the facility.

This automates the complex process of screening, validating, and monitoring individuals across all of your business locations, while meeting all privacy, compliance, safety and security requirements.

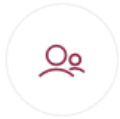

Touchless Entry

OR
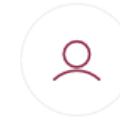

Kiosk Stand

Badge Printing

VISITOR MANAGEMENT

Facial recognition, badge print, pre-registration, whitelists, alerts, 30 Sec process, multilingual, multi-locations, otp, 2-way communication, ..

EVENT/SEMINAR PASS

To make it easy for you to design a singular badge that wows your audience for single or multi-day event with endless options.

SERVICE PASS

Entry became easy for service like maids to enter inside society with a streamline and track based system in the compounded societies.

DELIVERY MANAGEMENT

Courier or material loaded vehicle that make you easy to keep track of with on spot captures in an one touch solution.

VENDOR MANAGEMENT

Bidding vendors and collecting invitees and interacting with them became easier to management and saves lots of time.

CLOUD PARKING

Check dashboard and book the available slot of parkings online that saves lots of time and gets you assurance immediately.
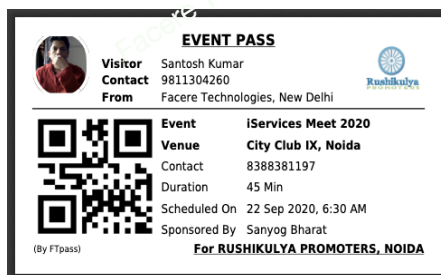

ATTENDANCE

Touchless/face recognition attendance system lets organisations track their employees and smooth administration managing of time.
